

Redmine - Defect #10699

Graph activities plugins error with redmine 1.4.x

2012-04-18 17:49 - Nabil Faouzi

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Core Plugins	Estimated time:	0.00 hour
Target version:		Affected version:	1.4.0
Resolution:	Invalid		
Description			
Hi,			
The redmine_graph_activities plugins failed with redmine 1.4.0			
I've updated to latest version and remigrate plugins into database, but nothing:			
ActionView::TemplateError (No route matches {:controller=>"graph_activities" ....			
And renderring an 500 Internal error!			
It's just for help someone in this case.			
Thanks			

History

#1 - 2012-04-18 17:56 - Etienne Massip

- Status changed from New to Closed
- Resolution changed from Fixed to Invalid

Please contact the plugin author and/or post in [Plugins](#) forum, the tracker is for Redmine core.

You can work around it by creating the file config/routes.rb (inside the plugin folder), with the contents following that pattern:

```
ActionController::Routing::Routes.draw do |map|
  map.connect '/controller_name/action_name', :controller => 'controller_name', :action => 'action_name'
end
```

Replace the **controller\_name** and **action\_name** by the ones you are getting on your error log. Create one line like that for each route that you get an error.
