

Redmine - Defect #10714

Broken HTML output on certain textile input

2012-04-19 16:13 - Alex Shulgin

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:		Affected version:	1.3.3
Resolution:			
Description			
<p>If there is a stray http:// on the line's end (this happens for example when a MUA reformats some quoted text in a mail ticket update,) Redmine will try to convert that to a link.</p> <p>Also this results in a broken HTML output: the rest of the text will be surrounded with the link tags pointing to "http://%3Cbr" (one can easily spot the start of a broken
 tag here.)</p> <p>I experience this on 1.3-stable, as well as on this site: redmine.org in it's current version.</p> <p>Example:</p> <pre>test http:// test 123 321 111</pre>			

History

#1 - 2014-02-22 09:08 - John Gabel

This is really old and doesn't appear to be an issue anymore. Recommend closing this issue.

#2 - 2014-03-14 08:47 - Toshi MARUYAMA

- Status changed from New to Closed
