<b>Resolution:</b>	
<b>Description</b>	
<p>Subscript and superscript works fine in all redmine text areas, but only if you put a blank between the normal and the subscript text.</p> <p>You can't write proper units at the moment and have to use e.g. CO<sub>2</sub>, m<sup>2</sup></p> <p>Although, it is part of the textile standard. It should be written e.g. as CO[~2~] m[^2^] and it's listed in the linked long help text.</p>
