Redmine - Defect #10779

redmine cannot deal with 4-byte utf-8 characters

2012-04-26 14:01 - flap flap

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Database		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate		**Affected version:**	1.4.0

Description

When entering an issue description or a note, all text after a 4-byte utf-8 character seems to get truncated.

To reproduce just create a new issue
in the description enter some text and a 4-byte utf-8 such a 🐳 and then some more text.
Then save the issue
All text after the 4-byte utf-8 will be gone from the ticket...

Entering a character using html-entities does work (eg 🐳). Copy-pasting a 4-byte utf-8 char fails. 3-byte utf-8 chars do work.

version/env: whatever demo.redmine.org is running.
