"Allow users to unsubscribe" option is confusing

"setting_unsubscribe: Allow users to unsubscribe" sounds like "be able to unwatch" but actually means that user can delete his own account.

I suppose it would be better to rename this option to something like:
"setting_self_deletion: Allow users to delete their own account"

Revision 9654 - 2012-05-08 13:03 - Jean-Philippe Lang

Replaced "Allow users to unsubscribe" with "Allow users to delete their own account" (#10787).

Agreed, string changed in r9654.
