# Redmine - Defect #10803

## Unable to Update (PUT) Versions Through API

2012-04-30 17:50 - Cory Riddell

| | | | | |
|---|---|---|---|---|
| **Status:** | Closed | | **Start date:** | |
| **Priority:** | Normal | | **Due date:** | |
| **Assignee:** | | | **% Done:** | 0% |
| **Category:** | REST API | | **Estimated time:** | 0.00 hour |
| **Target version:** | | | | |
| **Resolution:** | Invalid | | **Affected version:** | 1.4.1 |

| Description |
|---|
| The api docs (http://www.redmine.org/projects/redmine/wiki/Rest_Versions#PUT) say you should be able to update existing versions with PUT but when I try it, I get an error 405 that says "Only get and post requests are allowed.". |

## History

**#1 - 2012-04-30 18:37 - Jean-Philippe Lang**

*- Resolution set to Cant reproduce*

Which URL are you using to make your PUT request?

**#2 - 2012-04-30 18:40 - Jean-Philippe Lang**

*- Description updated*

And please post the application log instead of the response.

**#3 - 2012-04-30 20:28 - Cory Riddell**

The URL was 'http://localhost/redmine/projects/1/versions.json'
and the log contains this:

```
Processing ApplicationController#index (for 127.0.0.1 at 2012-04-30 10:41:24) [PUT]
  Parameters: {"version"=>{"status"=>"closed", "name"=>"1016"}}

ActionController::MethodNotAllowed (Only get and post requests are allowed.):
  config/initializers/mongrel_cluster_with_rails_211_fix.rb:62:in `dispatch_cgi'

Rendering rescues/layout (method_not_allowed)
```

**#4 - 2012-05-01 18:00 - Jean-Philippe Lang**

*- Status changed from New to Closed*

*- Resolution changed from Cant reproduce to Invalid*

To update a version, the PUT request is to be made to /versions/:id.:format (eg. /versions/2.xml).
Please, read Rest_Versions.
