Target version:		Affected version:	1.4.1
Resolution:			
Description			
Migration of trac wiki pages fails to convert some wiki links properly			
trac version 0.12.2			
redmine version 1.4.1			
# format of the lines.			
Trac markup => Produced markup >> Expected markup			
# Wiki page links with spaces in custom text.			
[MyWikiPage Custom Text Here] => [MyWikiPage Custom Text Here] >> [[MyWikiPage Custom Text Here]]			
# milestone links with custom text.			
[milestone:12w16 12w16] => [version:12w04 12w04] >> version:12w01			
or			
[milestone:12w16 12w16] => [version:12w04 12w04] >> version:12w01 12w04			
# cross project wiki links			
[otherproj:MyWikiPage page on other project wiki] => [otherproj:MyWikiPage page on other project w			
iki] >> [[otherproj:MyWikiPage page on other project wiki]]			
#child page links (parent page is ParentPage, the child page name is sensibly generated already, p			
arent-child relations are not preserved but that's out of scope for this defect)			
[./StandUp standup] => [./StandUp standup] >> [[ParentPageStandUp standup]]
