

Redmine - Feature #1088

Time logging via commit messages

2008-04-22 21:33 - Jone Marius Vignes

Status: Closed	Start date: 2008-04-22

Category: Time tracking	Estimated time: 0.00 hour
Target version:	
Resolution: Fixed	
Description	
It would be really nice to have the ability to log time spent on a revision in the commit-message. With distributed systems like git, it would then be possible to register time spent when working offline. Syntax could be something like "refs #11 (00:45)". The comment might be a link to the associated revision.

It would also possibly need to take an activity value as well as the time. +1

#2 - 2009-02-15 15:26 - Mischa The Evil

Related this issue to #1518 which also contains patches for this.

#3 - 2009-06-19 20:40 - Ludovic Aelbrecht

This seems like a dupe of #1518 to me, instead of just being related to it. Is there a reason this shouldn't be resolved to 'duplicate'?
