Mischa, how about changing or adding to the title of this feature so that it describes the ones it duplicates also, more accurately.. ? I'm thinking a solution to this is more general than disabling the default ticket fields?

#5 - 2010-01-04 09:37 - Jan Ivar Beddari

Sorry, I see now that this is related to #703 and together these are enough. Feel free to remove/delete these non-productive comments :)

I need to have a new issues interface that can be used by external parties. I don't want them to be able to see the "Assigned to" or "Due date" etc fields.

I am running 1.0.5 and I made the following changes to redmine/app/views/issues/_form.rhtml

24,26c24,28

```
---  
|  
| >  
| <div id="attributes" class="attributes">  
| = render :partial => 'issues/attributes' >
```

```
</div>  
end %>
```

This will render the issue attributes IF AND ONLY IF the user is a "Reporter" role. This will also remove access to any custom fields. It is a quick and VERY dirty hack but it is enough to keep me going until this issue is solved.

This capability would be huge.

#13 - 2011-04-26 15:39 - Terence Mill

I opened a feature request a time ago, which will include all this kind of field configuration.

See here Issue #8050

+1 Yes, indeed!

No reason not to include this feature. Arranging the form to your liking would also be quite useful. Right now, I added 4 extra fields and my eyes are already jumping around the form looking for the the ones I need to fill in and for those I want to skip.

#29 - 2012-07-05 14:21 - Jean-Philippe Lang

- File *standard_fields.png* added
- Subject changed from *Disabling default ticket fields* to *Disabling default ticket fields per tracker*
- Status changed from *New* to *Closed*
- Assignee set to *Jean-Philippe Lang*
- Target version set to *2.1.0*
- Resolution set to *Fixed*

Feature added in r9912. You can now disable regular fields on the tracker form:

standard_fields.png

#30 - 2012-08-12 13:34 - Terence Mill

That's required in issue #8417

+1 Yes, indeed!

No reason not to include this feature. Arranging the form to your liking would also be quite useful. Right now, I added 4 extra fields and my eyes are already jumping around the form looking for the the ones I need to fill in and for those I want to skip.

Sure not.

#33 - 2013-01-05 04:37 - HU an

Why do I still can't disable the "Status/Priority/File attaching/Watchers" field? People wanna add a complete new issue tracker things like meeting/billing/sales...

Badly need to need this feature!

#34 - 2013-01-05 12:25 - Daniel Felix

Wan Zhenhuan wrote:

Badly need to need this feature!*

Well, this could be solved after this patch is applied to the core #12005.

Best regards,
Daniel

#35 - 2013-08-01 00:19 - Mischa The Evil

- Precedes Defect #14584: Standard fields disabled for certain trackers still appear in email notifications added

#36 - 2013-12-04 05:37 - Toshi MARUYAMA

- Related to Defect #12707: Typo in app/models/tracker.rb added

#37 - 2014-10-04 17:56 - Damon Tabb

But the "priority" field still seems permanent. Is there a way to include that in the list of default fields that can be disabled? I have a specific tracker that doesn't need this field and it's causing some mild confusion with issue reporters.

#38 - 2015-03-06 04:42 - Go MAEDA

- Related to Feature #6637: "unwanted" features as plugins added

#39 - 2015-09-25 13:31 - Ashish Agrawal

Is there a plugin to disable the Issue core fields such as assigned_to_id on a project level basis? As per the existing settings, only custom fields can be disabled on a per project basis. Standard fields can be disabled per tracker/role/user but not per project.

I want standard fields disable options same as custom fields in project settings also.

#40 - 2017-02-09 05:05 - Go MAEDA

- Duplicated by Feature #9736: custom field visibility based on tracker added

#41 - 2018-05-21 16:57 - Go MAEDA
