Description

Hi,

We have some video stuff, which is related to our project. I need that videos to be hosted with redmine.

Video are with html script, when i copy that folder to redmine, i get error **No route matches "/G2A" with {:method=>:get}**, if i copy to www folder it works fine, on redmine i get error.

http://169.172.0.1/redmine/ works fine.

http://169.172.0.1/videos works fine

http://169.172.0.1/redmine/videos
No route matches "/G2A" with {:method=>:get}

Do i need to route this folder in route.rb file.

Need help please
