- Category set to UI
- Priority changed from Normal to Low

#2 - 2012-05-16 09:18 - fangzheng ( )

- File ico.PNG added

I found it interesting that when I tried to view the icon file I got an red X instead of 404 error.

This issue says the icon of the title is not displaying, so I tried the icon url to see if the file is missing. Maybe this is the cause of the icon issue?

Yes It says that icon itself is missing. Even i tried to see the icon with many browser but i couldn't see.

About the icon, it must be some (Apache ?) server misconfiguration or even browser cache issue on your side, it works well on mine's and on fangzheng's.

About the attachment description field, it is not designed to be aligned on right side, it just follows the other attachment related fields.
