Description

When trying to add an attachment to an already existing issue, I get a "Page not found" error.

With Chrome 18.0.1025.168 m (not tried with other browsers).

production.log stack trace is as follow:

Weird, _method is present and there is no substantial difference between a request with or without attachment.

Might be a Puma server issue?

#2 - 2012-05-16 11:11 - Etienne Massip

Attaching a file on issue creation I get a redirect to login page:
