#### Description

When trying to add an attachment to an already existing issue, I get a "Page not found" error.

With Chrome 18.0.1025.168 m (not tried with other browsers).

production.log stack trace is as follow:

#### History

##### #1 - 2012-05-16 11:03 - Etienne Massip

Weird, `_method` is present and there is no substantial difference between a request with or without attachment.

```
-----WebKitFormBoundaryiQcAUP1AzvJ5AhqN
```

```
Content-Disposition: form-data; name="_method"
```

```
put
```

Might be a Puma server issue?

##### #2 - 2012-05-16 11:11 - Etienne Massip

Attaching a file on issue creation I get a redirect to login page:

```
