Redmine - Defect #10967

Commit messages/comments should not convert subscripts to footnote references

2012-05-18 17:40 - Nathan Smith

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**

Category:	Text formatting	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Fixed	**Affected version:**	

Description

Commit messages, like "Fixed problem with accessing a[0]", that contain subscript indices are converted by RedCloth into footnote references. See, for example, the commit message on r9278 and the "Associated Revisions" section of #10505. Footnotes don't make sense on commit messages.

My workaround, for the time being, is to format subscripts as "a[0]", with extra space around the index.
