Category: SCM	Estimated time: 0.00 hour
Target version: 0.7.1	Affected version:
Resolution: Fixed	
Description	
SCM : CVS error info: ActiveRecord::StatementInvalid (Mysql::Error: Duplicate entry '1-14' for key 'changesets_repos_rev': UPDATE `changesets` SET `committer` = 'cvs_zhengyi', `s cmid` = NULL, `comments` = 'no message', `revision` = 14, `committed_on` = '2008-04-17 03:18:10', `repository_id` = 1, `commit_date` = '2008-04-17' WHERE `id` = 26)	
I found in table 'changesets' there are two type format revisions, in 0.6.3 is only number , 0.7 is _number, so I deleted first type rows, page working again, maybe this is a bug.

Rendering /home/postgres/redmine-0.7.0/public/500.html (500 Internal Server Error)

#5 - 2008-04-30 13:10 - Jean-Philippe Lang

Francis, do you get this error every time you go to the Repository page ?
And does your Redmine server run multiple instances (eg. thin cluster) ?

#6 - 2008-04-30 14:15 - Francis Chong

Yes, I get this error every time open repo page.

There is only one instance of server running.

#7 - 2008-05-02 18:41 - Leandro Lucarella

Since 0.7.0 is out, shouldn't this be changed to 0.7.1, so 0.7.0 appears as completed in the Roadmap?

#8 - 2008-05-02 20:31 - Jean-Philippe Lang

- Target version deleted (0.7)

I can't see how it can happen with a single instance.
Could you try to reload the repository (delete then reload the changesets) ?

#9 - 2008-05-03 15:50 - Francis Chong

Yes, i have clear changes and changesets, it is OK now.

#10 - 2008-05-17 13:14 - Jean-Philippe Lang

- *Status changed from Reopened to Closed*

- *Target version set to 0.7.1*

- *Resolution set to Fixed*

OK, thanks for the feedback.
