Description
In views/admin/mail_options.rhtml :

Added a self-clearing DIV so that fieldset border actually **contains** the checkboxes:

Original:

```ruby
<% actions.keys.sort.each do |group_id|
  <fieldset style="margin-top: 6px;">
    <legend><strong><%= l(Permission::GROUPS[group_id]) %></strong></legend>
    <actions[group_id].each do |p|
      <div style="width:170px;float:left;"><%= check_box_tag "action_ids[", p.id, p.mail_enabled? %>
      <%= l(p.description.to_sym) %>
    </div>
  </actions[
</fieldset>
<end %>
```

Changed:

```ruby
<% actions.keys.sort.each do |group_id|
  <fieldset style="margin-top: 6px;">
    <legend><strong><%= l(Permission::GROUPS[group_id]) %></strong></legend>
    <actions[group_id].each do |p|
      <div style="width:170px;float:left;"><%= check_box_tag "action_ids[", p.id, p.mail_enabled? %>
      <%= l(p.description.to_sym) %>
    </div>
  </actions[
</fieldset>
<end %>
```

It's the simple `<div style="clear: both;"/>` that's been added.

It's a small thing. :) Thanks for this cool, cool project!

Thanks for your submission.
Do you have the same problem on the role permissions screen ?
because it's the same kind of layout.

Regards,
Jean-Philippe

This problem is present within the role permissions screen, as well. I looked
around to find if there were similar problems and I guess I missed
this screen.
You can add the self-clearing DIV to that layout, as well.

I've made the appropriate change in views/roles/_form.rhtml and uploaded the fixed file. Sorry for not knowing how to submit a formal patch -- will have to look into how to do that. Thanks again for this project, it's great!

#4 - 2007-03-06 17:48 - Jean-Philippe Lang
thanks, i've committed the fix in the repository.
