Redmine - Defect #11
Minor rendering problem within Safari at admin/mail_options...
2007-03-06 16:49 - Chris Grant

In views/admin/mail_options.rhtml :

Added a self-clearing DIV so that fieldset border actually **contains** the checkboxes:

**Original:**

```html
<fieldset style="margin-top: 6px;">
  <legend><strong>l(Permission::GROUPS[group_id])</strong></legend>
  actions[group_id].each do |p| 
    <div style="width:170px;float:left;">check_box_tag "action_ids["]", p.id, p.mail_enabled?
    <div>l(p.description.to_sym)
    end 
  </fieldset>
</fieldset>
```

**Changed:**

```html
<fieldset style="margin-top: 6px;">
  <legend><strong>l(Permission::GROUPS[group_id])</strong></legend>
  actions[group_id].each do |p| 
    <div style="width:170px;float:left;">check_box_tag "action_ids["]", p.id, p.mail_enabled?
    <div>l(p.description.to_sym)
    end 
  </div>
<br>
</fieldset>
```

It's the simple `<div style="clear: both;"></div>` that's been added.

It's a small thing. :) Thanks for this cool, cool project!

**History**

**#1 - 2007-03-06 17:48 - Jean-Philippe Lang**

thanks, i've committed the fix in the repository.
I've made the appropriate change in views/roles/_form.rhtml and uploaded the fixed file. Sorry for not knowing how to submit a formal patch -- will have to look into how to do that. Thanks again for this project, it's great!

This problem is present within the role permissions screen, as well. I looked around to find if there were similar problems and I guess I missed this screen. You can add the self-clearing DIV to that layout, as well.

Thanks for your submission.
Do you have the same problem on the role permissions screen? because it's the same kind of layout.

Regards,
Jean-Philippe
