**Description**

In views/admin/mail_options.rhtml:

Added a self-clearing DIV so that fieldset border actually **contains** the checkboxes:

**Original:**

```html
<fieldset style="margin-top: 6px;">
  <legend><strong>{{ Permission::GROUPS[group_id] }}</strong></legend>
  actions[group_id].each do |p| 
    <div style="width:170px;float:left;">
      <%= check_box_tag "action_ids[", p.id, p.mail_enabled? 
      <%= l(p.description.to_sym) %>
    </div>
  end
</fieldset>
end
```

**Changed:**

```html
<fieldset style="margin-top: 6px;">
  <legend><strong>{{ Permission::GROUPS[group_id] }}</strong></legend>
  actions[group_id].each do |p| 
    <div style="width:170px;float:left;">
      <%= check_box_tag "action_ids[", p.id, p.mail_enabled? 
      <%= l(p.description.to_sym) %>
    </div>
    <div style="clear: both;"></div>
  end
</fieldset>
end
```

It's the simple `<div style="clear: both;"></div>` that's been added.

It's a small thing. ;) Thanks for this cool, cool project!

**History**

#1 - 2007-03-06 17:48 - Jean-Philippe Lang

thanks, i've committed the fix in the repository.
#2 - 2007-03-06 17:47 - Chris Grant

I've made the appropriate change in views/roles/_form.rhtml and uploaded the fixed file. Sorry for not knowing how to submit a formal patch -- will have to look into how to do that. Thanks again for this project, it's great!

#3 - 2007-03-06 17:32 - Chris Grant

This problem is present within the role permissions screen, as well. I looked around to find if there were similar problems and I guess I missed this screen. You can add the self-clearing DIV to that layout, as well.

#4 - 2007-03-06 17:28 - Jean-Philippe Lang

Thanks for your submission.
Do you have the same problem on the role permissions screen? because it's the same kind of layout.

Regards,
Jean-Philippe
