

Redmine - Patch #11021

Ensure that calendar is visible

2012-05-24 20:39 - Oleg Kandaurov

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Calendar	Estimated time:	0.00 hour
Target version:			
Description			
Many people use devices with small resolution. If a calendar button is too close to the right side of a browser's screen, then the calendar will be placed outside of the screen. The patch fixes that problem by scrolling the window. You can see on YouTube how this patch works <a href="http://youtu.be/FTuSNnNChPg">http://youtu.be/FTuSNnNChPg</a>			

History

#1 - 2012-05-26 17:26 - Oleg Kandaurov

- Assignee set to Jean-Philippe Lang

#2 - 2012-05-28 18:13 - Oleg Kandaurov

Can you give some comments on this patch and the other one [#11022](#) ?

#3 - 2013-06-12 12:11 - Filou Centrinov

- Status changed from New to Needs feedback

This seems to be fixed in Redmine 2.3.1. Do you agree?

#4 - 2013-06-16 07:33 - Toshi MARUYAMA

- Status changed from Needs feedback to Closed

- Assignee deleted (Jean-Philippe Lang)

public/javascripts/calendar was removed by jQuery porting [r10069](#).
