

Redmine - Defect #11024

redmine_plugin_model generator does not create the migration

2012-05-25 10:13 - Giovanni D

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Plugin API	Estimated time:	0.00 hour
Target version:	2.0.1	Affected version:	2.0.0
Resolution:	Fixed		
Description			
On Redmine 2.0.0, by following the tutorial on creating a new plugin (Plugin Tutorial), the following command:			
<pre>ruby script/generate redmine_plugin_model polls poll question:string yes:integer no:integer</pre>			
which actually I launched as:			
<pre>./script/rails generate redmine_plugin_model polls poll question:string yes:integer no:integer</pre>			
does not generate the migration files, but it generates only these two files:			
<pre>create plugins/polls/app/models/poll.rb create plugins/polls/test/unit/poll_test.rb</pre>
