Description

I would like the ability to set a default column order in the issue list.

Currently, I can only set which columns to include but have no control over the column order.

Revision 9780 - 2012-06-08 20:50 - Jean-Philippe Lang

Ability to set default column order in issue list (#11068).

History

#1 - 2012-05-31 17:14 - Etienne Massip

Seemed to me that columns order is the order you checked them in the administration settings.

#2 - 2012-05-31 18:00 - Jeremy Blanchard

I just tried this and it didn't work for me. They sort in the order listed in the administration > Settings > Issue Tracking page regardless of the order in which I check them.

I have a custom field that I would like to show up after priority but I am unable to do so.
Thanks

Now it`s possible to do only by custome queries, so when others are entering project their have no idea about this queries, so can't see in right order. Same if I need to sort issues byt parents task, then it's easy to see tree of issues in right order. I can make custome querie but can't set it by default. So it would be really helpful to have ability to set some custome querie as default for issue list.

#5 - 2012-06-08 20:51 - Jean-Philippe Lang

- *Status changed from New to Closed*

- *Assignee set to Jean-Philippe Lang*

- *Target version set to 2.1.0*

- *Resolution set to Fixed*

Feature committed in [r9780](). Same UI as for selecting columns in a query.
