History

#1 - 2012-06-05 12:13 - Etienne Massip

Looks like you forgot to run your database migration when [upgrading](#)?

Please give details according to [SubmittingBugs](#).

#2 - 2012-06-05 19:15 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Invalid

This is not a migration issue but an obsolete config/settings.yml. Please use a fresh version of this file.

#3 - 2012-06-06 08:51 - Konstantin Khatskevich

- Status changed from Closed to Reopened

This is my settings.yml. Where can I get fresh version of this file? I beginner in redmine and I don't know ruby.. I need only start this soft. Sorry.

#4 - 2012-06-06 09:51 - Etienne Massip

- Status changed from Reopened to Closed

It is bundled with Redmine in the config dir.

#5 - 2012-06-06 10:14 - Konstantin Khatskevich

what you do bear in mind?
I get this error when click to any link which contents 'issues'.

#6 - 2012-06-06 10:54 - Etienne Massip

Konstantin Khatskevich wrote:

what you do bear in mind?

I'm sorry I don't get it. I'm basically saying that the right settings.yml is bundled with the Redmine installation package and is located in the config dir.

#7 - 2012-06-06 11:07 - Konstantin Khatskevich

Hmm
I need reinstall redmine?
If I use svn, then all data will deleted?
Sorry for my english :-)

#8 - 2012-06-06 11:41 - Etienne Massip

Konstantin Khatskevich wrote:

I need reinstall redmine?

No! Just backup your actual settings.yml, replace it with the right bare one (which you can download from [source:/tags/1.4.3/config/settings.yml](https://sourceforge.net/p/redmine/1.4.3/config/settings.yml)).

depending upon your exact Redmine version) and edit it to adjust your settings if needed.

#9 - 2012-06-06 12:23 - Konstantin Khatskevich

Ohhh!!!! Yesss!!!

Thank you!!!!

It's works!!!
