

Redmine - Defect #11163

Priority Enumeration sort is broken

2012-06-14 15:13 - Alexey Ismailov

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Administration	Estimated time:	0.00 hour
Target version:		Affected version:	2.0.2
Resolution:	Duplicate		
<div>Description</div> <p>Sometimes, when i want to move posision of the priority to low or to high, positions of the priorities are crazy: after some manipulations(up, down, lowest, highest), redmine resets all positions to the "1". Mean, position field of all entities of priorities in the database, table "enumerations". This problem observed in 2.0.2, 2.0.1 and 2.0.</p> <p>Now i change order of the priorities manually, in the database.</p> <ul style="list-style-type: none">• DB — PostgreSQL 8.4.11• Ruby — 1.8.7 (x86_64-linux)• Rails — 3.2.5			

History

#1 - 2012-06-15 00:13 - Etienne Massip

- Status changed from New to Closed
- Resolution set to Duplicate

Same as [#11098](#), will be fixed with [2.0.3](#).
