Redmine - Defect #11355

Plain text notification emails content is HTML escaped

2012-07-09 23:49 - Arnis Juraga

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:	Jean-Philippe Lang		**% Done:**	0%
Category:	Email notifications		**Estimated time:**	0.00 hour
Target version:	2.1.0			
Resolution:	Fixed		**Affected version:**	2.0.3

Description

There are some problems with latest Redmine versions.
After upgrade to 2.0.2 (the same problem with 2.0.3), when sending e-mail notifications as PLAIN TEXT, something has changed.

Now - "<pre>" tag is replaced with <pre>

There are some other issues with incoming e-mails as well, but this is another issue.

Associated revisions

Revision 10205 - 2012-08-13 21:05 - Jean-Philippe Lang

Fixed that text email templates are escaped (#11355).

History

#1 - 2012-07-10 09:13 - Toshi MARUYAMA

- Category set to Email notifications

- Affected version (unused) set to 2.0.3

- Affected version set to 2.0.3

#2 - 2012-07-11 23:42 - Etienne Massip

- Subject changed from Redmine 2.0.2 e-mail notifications parsing to Plain text notification emails content is HTML escaped

- Status changed from New to Confirmed

- Target version set to Candidate for next minor release

#3 - 2012-07-11 23:45 - Etienne Massip

- Description updated

#4 - 2012-07-12 00:40 - Etienne Massip

Bad news: this is a [Rails issue,](#) more specifically a 3.x issue regression according to [original LH ticket.](#)

Good news: the issue has been reopened 14 days ago and a PR is being worked on (or, at least it was 8 days ago) so it could be fairly well fixed soon.

#5 - 2012-08-13 21:06 - Jean-Philippe Lang

- Status changed from Confirmed to Closed

- Assignee set to Jean-Philippe Lang

- Target version changed from Candidate for next minor release to 2.1.0

- Resolution set to Fixed

The ticket was closed on github. That's odd because I'm still able to reproduce with Rails 3.2... Patch applied in r10205 anyway.
