

Redmine - Feature #11385

Email notification when someone edits an update of an issue

Description Hi there! I'd like to suggest a feature. Right now, when someone updates an issue, an email notification is sent. But if that person edits the "update", no one is informed of that via email (to avoid confusion, I also added a screenshot). Thus, I'd like to suggest that email notifications are also sent if someone "edits" the "updates" he / she made to an issue.
