

Redmine - Defect #11463

Sub issues can not have parent outside a project

2012-07-20 10:11 - Daniel Dehennin

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	1.2.2
Resolution:	Duplicate		
Description Hello, In our setup, we have ~200 projects ¹ somewhat hierarchically organized and I would like to set cross projects parent issues. When I submit a "global" issue affecting several projects, I want to copy it to affected project and set the "global" one as parent issue. This permit to track long term evolution issues step by step. For now, I use links, the subissue blocks the parent one. Regards. [1] http://dev-eole.ac-dijon.fr/projects			
Related issues: Is duplicate of Redmine - Feature #5487: Allow subtasks to cross projects Closed 2010-05-09			

History

#1 - 2012-08-08 23:41 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Duplicate

Same as [#5487](#), planned for 2.2.0.
