

Redmine - Defect #1147

Updating tickets add a time log with zero hours

2008-04-30 07:41 - Anonymous

Status: Closed	Start date: 2008-04-30
Priority: High	Due date:
Assignee:	% Done: 0%
Category: Time tracking	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution: Fixed	
Description Updating a ticket but leaving the "spent time" field empty still add a time log entry with zero hours. These then show up on the spent time details and reports. This issue has only started occurring recently on trunk, possibly since some revision after roughly r1350 (unsure though - can't remember what revision I was at before this started happening).

Associated revisions

Revision 1385 - 2008-04-30 11:09 - Jean-Philippe Lang

Fixed: Updating tickets add a time log with zero hours (#1147).

History

#1 - 2008-04-30 11:12 - Jean-Philippe Lang

- Status changed from New to Closed
- Priority changed from Normal to High
- Target version set to 0.7.1
- Resolution set to Fixed

Fixed in [r1385](#) (caused by [r1361](#)).

This can be considered as a severe issue, a 0.7.1 will be released soon.

I don't think this is really resolved. I have a fully updated svn check out of 0.7-stable (<svn://rubyforge.org/var/svn/redmine/branches/0.7-stable>) and am still having this problem.

I just tested this with 0.7-stable and I didn't get an empty time entry at all. Can you confirm the steps you are using to reproduce this issue?

1. Went to /issues/show/954
2. Added a new note with an empty Spent time field
3. No time appears on the issue
4. No time appears on the Spent Time report

Console reports no time entries either:

```
>> i = Issue.find(954)
=> #<Issue id: 954 ...>
>> i.time_entries
```

=> []

#4 - 2008-08-11 19:40 - Jean-Philippe Lang

Time entries previously created by this bug won't be automatically deleted. You have to do it manually.
Do you still have 0 hours time entries that are **created** when updating a ticket ?

#5 - 2008-08-11 22:23 - Eric Davis

Do you still have 0 hours time entries that are **created** when updating a ticket ?

Nick Read, if you want to delete the old duplicate entries you can run this command **after backing up your database**

```
script/runner -e production "TimeEntry.delete_all('hours <= 0')"
```

I am still able to create this with .7.1 .

The database that we are using has a default value set for hours '0'. This is making the Hours field on the page when you update a ticket have the preset value of "0.0" which redmine is then saving in the database as a empty time entry. I haven't been able to get rid of the default value on the db for our live db but I did on the local db and that worked.

Shouldn't redmine not preset the value of the hours field even if there is a default value in the db?

Why if you enter 0 hours in to the field does redmine still accept it?

you mean with branch 0.7_STABLE or trunk? Version 0.7.1 wasn't repackaged.

#9 - 2008-08-14 23:37 - David Petersen

0.7_STABLE sorry.

#10 - 2008-08-21 19:36 - Jean-Philippe Lang

- Target version deleted (0.7.1)

While doing some testing regarding issue [#1650](#) I just found out that this is still happening with [r1745](#) of the trunk. I did get an empty time entry **while updating an issue using the context-menu**.

Steps to reproduce:

- Created a new issue / Or use an existing issue without spent-time
- Change the issue using the context-menu (e.g. change priority)
- 0.00 time appears on the issue
- 0.00 time appears on the Spent Time report

#12 - 2008-08-29 07:01 - Mischa The Evil

Please ignore my previous comment. It turned out I wasn't using a clean trunk @ [r1745](#).

This issue *could* be introduced (at least for me) by the patch of issue [#1650](#). See this [note](#) on patch [#1650](#).

#13 - 2008-08-29 08:43 - Mischa The Evil

After my rantings above decided to test this issue more precise. Here's what I came up with:

Zero-Hour timelogs are still added using [r1745](#) of the trunk. I did get an empty time entry **while updating an issue using the context-menu**.

Steps to reproduce:

- Created a new issue / Or use an existing issue without spent-time
- Change the issue using the context-menu (e.g. change priority)
- **No time** appears on the issue
- 0.00 time appears on the Spent Time report

Testing this with a export of the current trunk (@ [r1773](#)) this is not happening any longer. It seems to be fixed as a side-effect of the changes made in [r1765](#).

#14 - 2008-11-20 21:27 - Jean-Philippe Lang

- *Status changed from Reopened to Closed*

I confirm that this is fixed in current trunk.
