

Redmine - Defect #11476

No redirect when after logged in

2012-07-23 00:28 - # And

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Accounts / authentication	Estimated time:	0.00 hour
Target version:		Affected version:	2.0.3
Resolution:	Invalid		
Description			
When I go on project page unauthorized, my request redirecting to url like: http://redmine/login?back_url=http%3A%2F%2Fthin_redmine%2Fprojects%2Fmy-project%2Fsettings			
But when I logged in, after inputing login and password, request redirected to "my page", not to project page. Is it bug?			

History

#1 - 2012-07-23 00:41 - # And

Found the bug. Why host in back url - **thin_redmine**?

#2 - 2012-07-23 15:11 - Etienne Massip

What URL did you set in your administration settings?

#3 - 2012-07-23 15:16 - # And

It is not **thin_redmine**.

#4 - 2012-07-23 15:18 - # And

I use nginx - thin - redmine, if you want to know. One time when I use **thin_redmine** keyword - it is nginx upstream. Redmine system use SERVER_NAME or name from settings? I think SERVER_NAME is **thin_redmine**.

#5 - 2012-08-15 23:18 - # And

- Status changed from New to Resolved

Ok, configuration issue. Thanks for reply.

#6 - 2012-09-09 11:39 - Jean-Philippe Lang

- Status changed from Resolved to Closed

- Resolution set to Invalid

OK, thanks for the feedback.

#7 - 2013-08-28 09:34 - Terence Mill

I have the same issue using apache(mod_proxy)+webrick. Can u help me. What was the config issue, how to solve it?

If i logged out and put user/pwd again on this site and click login i don't get redirected to the main site, If i click "login" in the main menu i am already logged in and get redirect correctly. It only does not work if my browser points to

https://myredmine.loc/login?back_url=http%253A%252F%252Fmyredmine.loc%252F
