**Description**

Hi,

`I got the following error while trying` **`rake db:migrate:plugin NAME=redmine_scrumbler`**

Please install RDoc 2.4.2+ to generate documentation.
rake aborted!
undefined method `application' for Rails:Module

(See full trace by running task with --trace)

my rails version is 2.3.14 & redmine version is 1.3.2.

Is redmine_scrumbler plugin available for rails 2.3.14 or not?. Beause i checked the redmine_scrumbler's routes.rb that is in rails 3.
Can anyone plz help me?.

also please tell if there is any plugin for adding sprint versions in redmine 1.3.2.

Thanks in advance.
