Target version:	2.1.0		
Resolution:	Fixed		
Description Sometimes a user would post an issue containing something like "#01234" in the description/update. If there happen to be an issue with that number (and it is visible by the current user, which is always true for site admin,) the text would be converted to a link "#1234" w/o the leading zero when rendering the issue on the web. This was a problem when a user didn't mean to refer to an issue numbered 1234, but was using it in some other environment-specific context.

Revision 10077 - 2012-07-24 23:51 - Jean-Philippe Lang

Don't turn #nnn with leading zeros into link (#11494).

History

#1 - 2012-07-24 19:46 - Jean-Philippe Lang

Maybe a better option is to not display it as a link since it's not the exact issue id?

Well, I don't see why not, indeed. :-)

#3 - 2012-07-24 23:52 - Jean-Philippe Lang

- Tracker changed from Patch to Feature
- Subject changed from Preserve leading zeros in #nnn issue links to Don't turn #nnn with leading zeros into links
- Status changed from New to Closed
- Target version set to 2.1.0
- Resolution set to Fixed

Committed in [r10077](#).
