

Redmine - Defect #11504

While an issue is assigned to a group changing the issue status generates an error

2012-07-25 00:50 - Pawel Orzechowski

|   |         |                   |           |
|---|---------|-------------------|-----------|
| Status:   | Closed  | Start date:       |           |
| Priority:   | Normal  | Due date:         |           |
| Assignee:   |         | % Done:           | 0%        |
| Category:   | Issues  | Estimated time:   | 0.00 hour |
| Target version:   |         | Affected version: | 1.4.4     |
| Resolution:   | Invalid |                   |           |
| <b>Description</b>  |         |                   |           |
| <p>If an issue is assigned to a group and not to user and one wants to change its status (eg. from New to Resolved) then after clicking create the error page shows:</p> <p>"Internal error</p> <p>An error occurred on the page you were trying to access.</p> <p>If you continue to experience problems please contact your Redmine administrator for assistance.</p> <p>If you are the Redmine administrator, check your log files for details about the error.</p> <p>"</p> <p>After checking production.log I found that there is a statement ActiveRecord::AssociationTypeMismatch (User(#70073366359000) expected, got Group(#70073332635960)): which suggests that maybe there is something wrong with association/assignemnt.</p> <p>So when I change "assigned to" from group to a user, the status is updated correctly.</p> |         |                   |           |

History

#1 - 2012-07-25 08:33 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Invalid

Seems to be a plugin issue because the error occurs when calling a hook.

#2 - 2012-07-25 22:46 - Pawel Orzechowski

How to track which plugin is this?

I had similiar situation a few weeks ago with another issue ([#11374](#)), I asked that question there, also asked the question on forum, but get [no response](#).

Can you point me somehow?
