

Redmine - Defect #11571

Custom fields of type version not proper handled in receiving e-mails

2012-08-02 08:36 - Klaus Günther

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Email receiving	Estimated time:	0.00 hour
Target version:	2.1.0	Affected version:	1.4.1
Resolution:	Fixed		
Description			
<p>The value of customer fields of type version not converted to a version id while processing a received e-mail. It must be done like the issue field <i>fixed_version_id</i>.</p> <p>The code in mail_handler.rb should be something like:</p> <pre># Returns a Hash of issue custom field values extracted from keywords in the email body def custom_field_values_from_keywords(customized) customized.custom_field_values.inject({}) do h, v if value = get_keyword(v.custom_field.name, :override => true) if v.custom_field.field_format == 'version' value = customized.project.shared_versions.named(value).first.try(:id).to_s end h[v.custom_field.id.to_s] = value end end h end</pre> <p>The problem is also in the current trunk.</p>
