

Redmine - Defect #1161

SVN-Version not installable

2008-05-02 03:31 - Dennis K

Status:	Closed	Start date:	2008-05-02
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		
Description Hi! After injecting this command: <pre>rake db:migrate RAILS_ENV="production"</pre> I got an error-message: <pre>www-data@zion:~/redmine\$ rake db:migrate RAILS_ENV="production" (in /var/www/redmine) rake aborted! no such file to load -- initializer /var/www/redmine/Rakefile:4:in `require' (See full trace by running task with --trace) www-data@zion:~/redmine\$ rake db:migrate RAILS_ENV="production" --trace (in /var/www/redmine) rake aborted! no such file to load -- initializer /usr/lib/ruby/1.8/rubygems/custom_require.rb:27:in `gem_original_require' /usr/lib/ruby/1.8/rubygems/custom_require.rb:27:in `require' /var/www/redmine/config/boot.rb:16 /var/www/redmine/Rakefile:4:in `require' /var/www/redmine/Rakefile:4 /usr/lib/ruby/1.8/rake.rb:2149:in `load' /usr/lib/ruby/1.8/rake.rb:2149:in `raw_load_rakefile' /usr/lib/ruby/1.8/rake.rb:1897:in `load_rakefile' /usr/lib/ruby/1.8/rake.rb:1948:in `standard_exception_handling' /usr/lib/ruby/1.8/rake.rb:1896:in `load_rakefile' /usr/lib/ruby/1.8/rake.rb:1880:in `run' /usr/lib/ruby/1.8/rake.rb:1948:in `standard_exception_handling' /usr/lib/ruby/1.8/rake.rb:1878:in `run' /usr/bin/rake:28</pre> Obviously, the directory "vendor/rails" is missing in the svn-version. Copying the missing folder from the downloadable version workarounds it. slazZ			

History

#1 - 2008-05-02 11:55 - Francis Chong

I encountered similar problem.

Cannot use "rake rails:freeze:edge" with error "constant Rails is undefined", using download version is OK.

#2 - 2008-05-02 14:03 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Invalid

You'll find the answer in the FAQ: <http://www.redmine.org/wiki/redmine/FAQ#3>
