

## Redmine - Defect #11625

### Administrator Does Not Follow Workflow For Project

2012-08-13 15:54 - William Roush

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Permissions and roles	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	1.4.0
<b>Resolution:</b>	Invalid		
<b>Description</b>			
Alright fairly simple, I have a few roles:			
<ul style="list-style-type: none"><li>• Manager</li><li>• Developer</li><li>• Technician</li></ul>			
Developers have additional workflow: "Pending QA Deployment" > "Deployed to QA" > "Passed QA", available for the "Developer" and "Manager" roles.			
Technician have the default workflow.			
Tech_Bug_1.PNG For some reason while logged in as an Admin on a project I'm given Technician access to, I am given the developer workflow!			
Tech_Bug_2.PNG This is a bit odd, anyone got ideas?

#### History

##### #1 - 2012-08-14 10:08 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Invalid

I'm closing it because administrators can apply any status transition given to any role, by design. See [#2323](#).

But what about projects where that workflow is invalid? No one in that project has that workflow, so no one can transition a ticket set to "Pending QA Deployment", which is kind of a workaround for [#1853](#).

##### #3 - 2012-08-15 01:40 - William Roush

However, I still cannot go from "New" to "Deployed to QA" or "Passed QA" as those are globally invalid transitions, so neither are all options available.

##### #4 - 2016-04-06 05:38 - Toshi MARUYAMA

- Has duplicate Defect #22162: Workflow - Tracker/Role is not "project" specific added
