NoMethodError message attachment.

#2 - 2008-05-04 15:23 - li wei

- File add_attachment_messager.htm added

when add a file , system reply "+NoMethodError in IssuesController#edit+"

#3 - 2008-05-04 15:25 - Jean-Philippe Lang

- Status changed from New to Closed

You didn't migrate your database. See RedmineUpgrade.

#4 - 2008-05-04 17:40 - li wei

My Upgrading step is :

1. **mysqldump** redmine_production > redmine_production_v0.6.3.sql;
2. **uninstall** redmine(version 0.6.3);
2. **reinstall** redmine.0.7.0.RC1;
3. **bin/mysql.exe source** redmine_production_v0.6.3.sql;

I have not use "RedmineUpgrade" , and "RedmineUpgrade" is the only way ?

#5 - 2008-05-04 18:27 - li wei

After import redmine_production_v0.6.3.sql, all is ok, but "New issue" report "No Mehod Error".

#6 - 2008-05-04 19:31 - Jean-Philippe Lang

You have to migrate your Redmine database in order to make it work with the new version of Redmine.
Run this in your Redmine directory:

```
rake db:migrate RAILS_ENV="production"
```

And restart the application.

#7 - 2008-05-05 05:07 - li wei

thanks a lot， 谢谢你。
