**Description**

Now it is only groups:

- Referencing keywords
- Fixing keywords

with actions:

- Applied status
- Done

---

**It will be good to add extra keywords groups for processing with different actions e.g.**

- Processing keywords
  - Applied status: In Progress | Done: 20%

**Or extra features**

- Testing keywords
  - Applied status: Testing | Done: 90% | Assignee: Testing Team
- Processing Plus keywords
  - Applied status: In Progress | Done: +10%
- Bounce keywords
  - Applied status: Feedback | Assignee: Ticket Owner

**Related issues:**

- Related to Redmine - Feature #4911: Multiple issue update rules with different keywords in commit messages

**History**

**#1 - 2012-08-24 16:31 - Etienne Massip**

- Subject changed from Ability to configure additional groups by keywords with extra features in commit messages to Ability to configure additional groups of keywords with extra features in commit messages
- Category set to SCM
- Target version set to Candidate for next major release

**#2 - 2012-08-27 11:33 - Jean-Philippe Lang**

- Tracker changed from Defect to Feature

**#3 - 2013-07-03 14:21 - Reinaldo Coelho Sartorelli**

It would be great if we can add the item "Assigned" to the keywords as the possibility exists for example to send tickets "closed" to the test team

**#4 - 2013-10-09 03:43 - Mischa The Evil**

- Related to Feature #4911: Multiple issue update rules with different keywords in commit messages added
