

Redmine - Defect #11825

Form elements disappear in Firefox

2012-09-12 16:33 - Go MAEDA

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: UI	Estimated time: 0.00 hour
Target version:	Affected version: 2.1.0
Resolution:	
Description Form elements sometimes disappear in Firefox when a mouse over. The problem is addressed by the attached patch. <ul style="list-style-type: none">• Redmine trunk (r10373)• Firefox 15.0.1 (Mac)	
Related issues: Copied to Redmine - Defect #14031: Form elements disappear in Firefox 20.0 on... Closed	

History

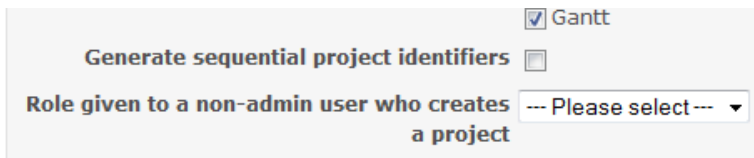

#1 - 2012-09-12 21:23 - Jean-Philippe Lang

- File *overflow-hidden_or_auto.png* added

- File *overflow-visible.png* added

Using overflow:visible has side effects. Would overflow:auto fix the issue too?

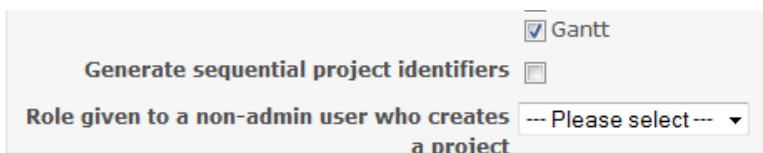

Without patch applied:

A screenshot of a Redmine form titled "Generate sequential project identifiers". It features a checked checkbox for "Gantt", an unchecked checkbox for "Generate sequential project identifiers", and a dropdown menu for "Role given to a non-admin user who creates a project" with the text "Please select" and a downward arrow.

Save

With patch applied:

A screenshot of the same Redmine form as above, but with the "Generate sequential project identifiers" checkbox checked.

Save

#2 - 2012-09-13 00:32 - Go MAEDA

No. overflow:auto does not fix the problem.

#3 - 2012-09-24 01:03 - Toshi MARUYAMA

- Affected version (unused) changed from devel to 2.1.0

- Affected version set to 2.1.0

#4 - 2014-06-20 02:07 - Go MAEDA

- Status changed from New to Resolved

I cannot reproduce it in Firefox 30.0 (Mac).
Firefox is might have been fixed.

#5 - 2014-07-16 04:10 - Toshi MARUYAMA

- Status changed from Resolved to Closed

Thank you for your feedback.
