Target version:		Affected version:	
Resolution:			
Description i hope i report in the good place. sorry for bad english i have some trouble with gant work process. i have a master task, 5, who have some sub task 8, 11, 12,... gant_1.jpg i have a closed task, the 11, with a due date for the same day all other sub tasks are free of due date because date not yet fixed for the moment. i see the due date of my main task automatically set on the due date of sub task 11, it's the start day of my main task !!! it's a little weird when we saw it in the gant graph the main task should be set blank due date when at least a sub task have is own due date blank the result may be looks like this : (i cheattead on the due date of the sub task 8. i set it to due date of my rev 1.0) gant_2.jpg same bug with my main task 3 and subs 9 and 10 i delete the due date of sub task 9 gant_3.jpg i hope this could help

History

#1 - 2012-09-16 03:31 - Toshi MARUYAMA

- Subject changed from trouble with GANT to trouble with gantt

#2 - 2013-01-16 10:06 - Daniel Felix

I checked this in 2.2.1.
Currently tasks without a due date won't have any bar.

But there are some patches, which maybe also correct this one. [#12730](#)

Please take a look at them. :-)
