### Description

If you have a large and difficult the password, it is often mistaken for the input. After post form the password must also fill out and the name, it is not convenient.

### Associated revisions

**Revision 10609 - 2012-10-11 19:17 - Jean-Philippe Lang**

Preserve username when authentication failed (#11846).

### History

**#1 - 2012-09-17 10:33 - Etienne Massip**

- Target version set to Candidate for next major release

**#2 - 2012-10-10 22:23 - Jean-Philippe Lang**

- Target version changed from Candidate for next major release to 2.2.0

**#3 - 2012-10-11 19:18 - Jean-Philippe Lang**

- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang
- % Done changed from 90 to 100

Patch committed with test in r10609 and a small change: focus is done on the password input field after the failure.
