### Description

I think is better put the thumbnails and the attached files only in the position in the history when the file is attached, and only attach and locate in the begin if do you attach when edit the description of the issue.

And show the thumbnail if this is a image.

## History

**#1 - 2012-09-28 15:57 - Luis Serrano Aranda**

This makes it easier to understand a issue

**#2 - 2012-09-30 11:13 - Jean-Philippe Lang**

I personnaly like to have all attachments in one place, for not having to search through the whole issue history to find the latest version of an attachment.

It 'is possible add the thumbnail inside the history (if the file attached it's a image file)

**#11 - 2012-10-21 03:47 - Toshi MARUYAMA**

*- Category set to Attachments*
