

Redmine - Feature #12002

I'd like to see an Issue Status Description

2012-10-01 16:56 - Jim McAleer

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:			
Resolution:	Duplicate		
Description I like to see a status description so people could see what the statuses means. This would be on hover over the status description and a new field added to the issue_statuses page. Then a user could hover over it and get a description of what the status means. New - is a new issue a user has discovers. Open - is an issue that has been approval to be worked on. In Progress - the issue is currently being worked on. Reject - the administrator do not feel this is appropriate.
