Redmine - Defect #12050

:export links to repository files lead to a 404 error

2012-10-09 15:45 - Alexey Artemov

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:	Jean-Philippe Lang	**% Done:**	0%
Category:	SCM	**Estimated time:**	0.00 hour
Target version:	2.1.3		
Resolution:	Fixed	**Affected version:**	2.1.2

Description

I'm trying to make download link to a file from svn-repository. If i write in issue:

```
export:"NSK130/branches/Release/O131.hex"
```

I get:

```
http://localhost:50080/projects/skudopp-nsk-131-sw/repository/entry/NSK130/branches/Release/O131.h
ex.raw
                                                                    ------
    -----
```

Instead of:

```
http://localhost:50080/projects/skudopp-nsk-131-sw/repository/raw/NSK130/branches/Release/O131.hex
                                                           ----                                 -
----
```

And of course then obtain 404-error.
PS: Quotes removal has no effect

Redmine version - **2.1.2.stable.10570**
