Resolution: Invalid	

Description

Anyone know why the file in pdf form from the link in PDF ticket, generates file so heavy compared to print through the browser ?

Comparison: Printed ticket via the PDF link is the size of 309KB and through the browser print 66KB.

This would be a problem?

History

- Status changed from New to Closed
- Resolution set to Invalid

This is neither a bug or a feature request, please post your question in forums.

You should ask Toshi, but it could be due to the inclusion of some fonts in the PDF.
