Same error as [#11005](#).

#6 - 2012-10-12 14:59 - Johannes Pfeifer

- Status changed from New to Resolved

Issue solved by [#11005](#).

Thanks to Jean-Philippe Lang.

Edit this file

```

actionpack (3.2.6) lib/action_dispatch/http/mime_negotiation.rb

```

change from

```

Array(Mime[parameters[:format]])

```

to

```

Array.wrap(Mime[parameters[:format]])

```

#7 - 2012-10-12 15:35 - Jean-Philippe Lang

- Status changed from Resolved to Closed

OK, thanks for the feedback. I'm closing it since it's more a rails/rack issue.

#8 - 2013-01-25 13:20 - Pavel Potcheptsov

I have the same issue:

<http://www.redmine.org/boards/2/topics/35751?r=35759#message-35759>

but patching above mime_negotiation.rb file didn't help.

Also I don't see any error in production.log

Link to the "Edit" button looks like above:

```

http://<server>issues/<issue_number>#

```

and after click Edit I see in debugger:

```
[14:13:38.908] GET https://<server>/journals/edit/41360.js [HTTP/1.1 404 Not Found 64ms]
```

Often it is nginx/apache config that is caching all .js files - which breaks Redmine as it (weirdly) does use some .js files for user content.

If you do have an nginx/apache config that sets long expires on .js files: then see in Issue [#13564](#) - Etienne suggests a config he says works.
