

Redmine - Patch #12077

Links ending with non-english letters don't parse completely

2012-10-11 15:45 - Sergey Bir

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Text formatting	Estimated time: 0.00 hour
Target version:	
Description Here is an example, a link that ends with russian letters. But not the whole link becomes clickable: http://domain.com/something/неплохо If i put a trailing slash or brackets around it - it parses correctly: http://domain.com/something/неплохо/ (http://domain.com/something/неплохо) This bug is a pain because wiki urls with or without a trailing slash are different

Please see the attached patch. Have modified regular expression and application_helper_test.
redmine version 1.4.5

#4 - 2013-02-01 21:37 - Jan Niggemann (redmine.org team member)

- Tracker changed from Defect to Patch

#5 - 2013-04-09 16:33 - Filou Centrinov

It's seems to be fixed, isn't it?

#6 - 2013-04-09 17:08 - Sergey Bir

- Status changed from New to Resolved

yeah now it seems to be fixed

#7 - 2013-04-10 06:35 - Toshi MARUYAMA

- Status changed from Resolved to Closed
