

## Redmine - Feature #12234

### Widget-Links should be translateable per widget.

2012-10-27 23:16 - Daniel Felix

<b>Target version:</b>	
<b>Resolution:</b>	
<b>Description</b> Currently, they seem to use all the same translation key.  If a use has 3 Widgets on "My Page". For example: My Tickets, Tickets assigned to me, Tickets watched by me. He gets 3 Links: "View all Tickets". Which seems to be syntactically wrong.  Better would be: Widget -> Linkname My Tickets -> View all Tickets created by me Tickets assigned to me -> View all Tickets assigned to me Tickets watched by me -> View all Tickets I'm watching
