<b>Description</b> Hi,  it would be great to have translateable notifications.  Even if I changed my preferences to german, I still get notified in english. Example: Issue <a href="#">#1798</a> has been updated by Jean-Philippe Lang. Status changed from New to Closed Resolution set to Fixed  It would be great to have the abbility to translate this. Maybe with some custom translations. But anyway... it would be good to have this translated. It would be useful for some customers.  Best regards, Daniel
