

Redmine - Defect #12244

Preview Layout breaks on large images

2012-10-29 12:03 - Daniel Felix

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Fixed		
Description I noticed some misbehaviour on IE9. I seen this on Freature request #12243 . If the window is too small to display the whole image, the ticket display gets many pagebreaks. Adding "overflow: scroll" or "overflow: hidden" solve this problem.			
Related issues: Is duplicate of Redmine - Defect #3163: Large inline images overflow Closed 2009-04-13			

History
