

## Redmine - Defect #12252

### All Integration API Tests fail

2012-10-29 20:32 - Gabriel Mazetto

|  |         |                          |           |
|--|---------|--------------------------|-----------|
| <b>Status:</b>   | Closed  | <b>Start date:</b>       |           |
| <b>Priority:</b>   | Normal  | <b>Due date:</b>         |           |

| <b>Target version:</b>   |         | <b>Affected version:</b> | 2.1.2     |
| <b>Resolution:</b>   | Invalid |                          |           |
| <b>Description</b>   |         |                          |           |
| <p>I'm probably doing something wrong, but I followed the instructions and common sense steps to run Integration tests for the API, and got the following result:</p> <pre>Finished in 26.495165 seconds.</pre> <pre>309 tests, 338 assertions, 61 failures, 11 errors, 0 pendings, 0 omissions, 0 notifications</pre> <pre>0% passed</pre> <pre>11.66 tests/s, 12.76 assertions/s</pre> <p>Many, if not all, failed with a 500 error.</p> <p>I did the following to setup the database:</p> <pre>rake db:create RAILS_ENV=test</pre> <pre>rake db:schema:load RAILS_ENV=test</pre> <pre>ruby test/integration/api_test/issues_test.rb</pre> |         |                          |           |

#### History

##### #1 - 2012-10-30 08:24 - Jean-Philippe Lang

- Category deleted (REST API)
- Priority changed from High to Normal

All the tests run OK on the CI server: <http://www.redmine.org/builds/index.html>.  
Maybe you could provide the stack trace of one these errors?

##### #2 - 2012-10-30 16:45 - Gabriel Mazetto

I identified that all of them was related with the "EmailWatcher" plugin, as it follows:

```
NameError (uninitialized constant Issue::EmailWatcher):
```

I don't know exactly what is the expected behavior, if it is to initialize plugins before testing, or what, but there is definitely a problem here.

##### #3 - 2012-10-30 20:52 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Invalid

Plugins are loaded before running tests. I'm closing it since it's a plugin issue.
