I fully agree. 50 would be a nicer limit.

I have just added patch [#1789](#) to raise the project-name 30-character length-limit to 35-characters.

You can modify the patch as desired to raise the length-limit to whatever you want. Though read my warning carefully since a too-long name can really mess-up some views :-)

HTH...

Nowadays, projects can have names at least 80 characters long.

I think this issue could be closed.

Confirmed. The name and identifier is much longer.

Name length (255 characters):  
[source:trunk/app/models/project.rb#L74](#)

Identifier (100 characters):  
[source:trunk/app/models/project.rb#L76](#)
